## **MEMORANDUM**

To: Mayor and City Council

From: Howard J. Koontz, City Planner

Date: September 13, 2010

Subject: Amendments to the text of the Zoning Ordinance, specifically Section 27-1303, "Accessory Buildings, structures, and uses."

### BACKGROUND

The Dunwoody Mayor & City Council has directed staff to review the current Zoning Ordinance as it relates to "Accessory Building and Structures." Accessory Buildings and Structures are defined as:

Accessory building means a building detached from the principal building located on the same lot and customarily incidental and subordinate in area, extent, and purpose to the principal building or use.

Accessory structure means a structure detached from the principal building located on the same lot and customarily incidental and subordinate in area, extent, and purpose to the principal building or use.

### DISCUSSION

Specifically, staff has been asked to investigate the idea of requiring a minimum distance an accessory building or structure must be located from the principal structure, known as a primary building separation. The proposed amendment is added to the end of Section 27-1303 as a subsection that would read as follows:

(i) All accessory buildings and structures shall be located a minimum of ten (10) feet from a principal building or structure on the same lot. The primary building separation between a principal building or structure and accessory building or structure is determined by measuring the perpendicular distance from the closest points on the buildings or structures.

### RECOMMENDATION

Community Council heard this item at their regularly scheduled July 8 meeting. The Council voted to recommend the proposed changes by a vote of 5-1.

Planning Commission heard the item at their regularly scheduled meeting on August 10. After discussion, the Commission voted to recommend the proposed changes 4-0.
