MEMORANDUM

To: Mayor and City Council
From: Kimberly Greer, Assistant to the City Manager
Date: October 29, 2012
Subject: **Update on Transference of Fire and EMS calls**

ITEM DESCRIPTION

Staff is preparing for connectivity testing of the recently installed data connection which will be used to electronically share 911 call data.

CAD-to-CAD INTERFACE

In an effort to further improve the communication between the two 911 centers serving Dunwoody, staff continues to work diligently on the Computer Aided Dispatch (CAD)-to-CAD interface project.

Since the September update, a data connection for testing has been installed between the DeKalb County 911 Center and the ChatComm 911 Center. Staff is coordinating a conference call between DeKalb County and ChatComm for network diagramming and necessary programming to ensure the data connection is properly connected to each network.

NEXT STEPS

Connectivity testing is tentatively scheduled for the week of October the 29th and interface testing is tentatively scheduled to follow in the month of November.
