
MEMORANDUM

To: Mayor and City Council

From: Michael Smith, Public Works Director

Date: 9/10/2012

Subject: **2012 Sidewalk Construction Contract**

ITEM DESCRIPTION

Discussion of 2012 Sidewalk Construction Contract

BACKGROUND

At its January 9th meeting, the council agreed to move forward with the sidewalk projects highlighted in blue on Attachment "A". A public information meeting was held on May 1st, 2012 and Public Works staff has had a number of follow-up meetings with individual property owners.

The two Mount Vernon segments are currently under construction and the Winters Chapel segment is expected to be constructed by Gwinnett County in September. Detailed engineering plans have been completed on the remaining segments and the City is currently advertising a bid for construction of all but the Roberts Drive segment and a portion of the Vermack Road segment. After surveying the Roberts Drive location, it was discovered that additional right of way will be required to construct this segment. Due to the time that will be required to acquire the right of way, this segment was not included in the bid. The Vermack Road segment from Womack Road to Vanderlyn Drive was also not included in the bid in anticipation of the Womack intersection improvement currently in design.

Bids are being advertised for four weeks and will be opened on September 11th. I anticipate providing a recommendation for contract award and a complete tabulation of all bids at the September 24th council meeting.
