

tennis courts
aquatic center

George Houston
770-459-2930

Senior Center

- Preparation in Brook Run
- Activities & Entertainment

Youth Sports Fields

- Soccer
- Football

Parking

- Verify sufficient parking spaces
- week night sports will offer
have 2 vehicles per family

How will wetlands and

low lying areas, stream
banks, etc. be protected

and how will streams +
creeks be protected?

What about loss of trees
that hold water + protect runoff

Bob Adams

AT THE MOST RECENT COUNCIL MEETING IT WAS STATED THAT THERE WOULD BE ONLY ONE AMPHITHEATRE & IT WOULD BE ON THIS SITE. BROOK RUN WOULD BE A BETTER CHOICE. THIS PROPOSED SITE IS ADJACENT TO HEAVILY TRAFFICED N. SHALLOWFORD, WHICH WOULD BE DISTRACTING TO SAY THE LEAST. IN ADDITION, PARKING COULD BE AN ISSUE.

JAN PRYOR

Move Amphitheater!

The location is awful for performances. Street noise will make performance impossible to hear, even with amplification.
1/ Swap with picnic shelters/open meadow
2/ Also - this feature would be better placed at Brook Run, where there is no street traffic and better options for parking.

49 spaces + 37¹ Space not enough for performances. Would prefer move if amphitheater stays at this park.

Kate Lee

LOVE THE TEAM BUILD MORE!

WE NEED SPORT FIELDS FOR OUR KIDS.

KEEP UP THE GOOD WORK!

MAKE THE STATION AN ESCAPE
FEATURE

Consider making basketball court for bigger
youth & adults; possibly covered.
Rec. it not be a part of multi-purpose court.

Too many small children playgrounds in same area!

Frankie [Signature]

Looking forward to additional
greenspace & play areas in our
city. We need more fields
& organized recreation activities
for the growing number of young
families moving into the city.

Enclosed Dog Run

15' wide with 5' side WALKING PATH AS LONG AS POSSIBLE
EAST Side of Sports Fields

OUTDOOR Fitness Equipment on Trail AND AROUND PLAYGROUND

Labyrinth (spelling)
made of bricks for the park
Takes up small area

① Why do we need amphitheater?
No this entertainment for people
community
same as Big Red Run - connected
by NP trail!

② Why do we need another
children's playground?

③ What happened to a "park"?

Rayle Weaver

ONE ALL PURPOSE COURT WILL NOT BE SUFFICIENT. A SEPARATE BASKETBALL COURT IS NEEDED, ESPECIALLY DURING "OUT OF SCHOOL" PERIODS WHEN TEENAGERS IN THE NEARBY APARTMENTS HAVE IDLE TIME. WHAT ABOUT FEMALE BASKETBALL PLAYERS? THEY ALSO DESERVE A PLACE TO PLAY.

HILBERT MARGOL

Concerns:

There are two communities at the end of Pernoshal. The units number around 100, we are worried about traffic & parking on Pernoshal as well as pedestrian traffic through our communities.

The other concern is for pedestrian traffic from our communities up Pernoshal - will there be a full sidewalk that goes up the length of Pernoshal?

Hillary Meister

Suggestions: Community

Garden, water features

Serenity garden,

Memorial garden

No basketball - if need park at Pennoshal

No playground - all have park
Some only new playground
Area?

Too many parking spots on road
Cost to maintain

Name _____

Ampitheatre old be at Brook Run if at all. There's no need for a basketball court. Why have 2 playground areas when we will have the one across the street + the areas in Bishop. What about elements in these areas for the surrounding neighborhoods? What about a circle of trees under the fields as a separate street for the remainder of the project? What could be the main ~~main~~ in the project + police office.

If you don't move amphitheater, then relocate small kid playgrounds in front of the terracing. Parents can sit there to watch children. That would allow for more multipurpose courts and open fields.

Kate Lee

This park needs more multi-purpose sports courts — we have new playground next to the Wieland homes site, and at Brook Run — so let's build something for tweens + teens + adults.

Noise from Amphitheater (Impact on Residents)

Stairs + corner design (Cost effective)??

How about a meditation garden
(Japanese, Zen, etc)
for Adults to enjoy

Josh Sotnick

Park should have a low maintenance cost.

Connection trail to Brook Run should be expedited.

Do not install Basketball hoops.

Prefer passive recreation to active recreation

The City needs sports

Basketball courts Soccer field

7) e already have playgrounds
X3

Concerns

Special Event Parking - Space

↳ overflow & congestion in residential areas

Amphitheater noise too close to residential areas

facilities not so great for nearby homeowners

Amphitheater conflict with road noise - move to Brook Run

Traffic lights will have to be fixed timing way off

↳ skips Peroshal at times

Current state of property not maintained

Lit enough for safety - but not so much, ~~that~~

That basketball court near all the apartments will attract older
(more rowdy) crowds... security?

Decrease value of my home?

Likes

No lights on sports field

Playgrounds ^{facilities}

~~Green space~~ great for Dunwoody

Increase value of my home?

AMPHITHEATER SHOULD BE MOVED TO

BROOK RUN PARK WITH GOOD SEATING -

NEED PARKING - NEED EASIER INGRESS &

EGRESS - NEED TO BE AWAY FROM MAIN ROAD

SO ~~NOISE~~ NOISE FROM TRAFFIC DOES NOT

INTERFERE - ALSO THIS LOCATION CREATES

TOO MUCH TRAFFIC IN THIS RESIDENTIAL AREA

NEED BASKETBALL FOR OLDER KIDS

WATERLESS URINALS

SOLAR POWER

WATER DISPENSER / PURIFIER (FILTRATION SYSTEM)

VOLLEYBALL (SAND COURT)

BIKE RACKS THROUGHOUT (4 RACKS each location)

FRUIT TREES

NATIVE GRASSES - VS - TURF = less WATER constraints

~~PERMABLE~~ PERMABLE PAVERS ON PARKING LOT

ADULT "ACTIVE" PLAY (NOT SPORTS) + NET for little kids

BIO-SWALE = ECO/GREEN as a "feature"

WAYFINDING SIGNS

EMERGENCY CALL BOX

* PUBLIC ART !!

Amphitheater should be
moved to Brook Run

so the Middle School

could use it for Drama

Dept purpose esp since
we are planning to have our own
schools

① Comment Card

11/19/13

Georgetown

Please do not use the term

"Linear Park." It is a political euphemism for SIDEWALK and deceptively vague. Say precisely what you intend to build.

Ditto for "Raised crosswalk"

Ge. town 11/16/13

②

What will amphitheater be used for?

Will there be a fence around it?

Will there be a charge for it?

or for parking?

Will the city build a parking deck in this area? It seems reasonable.

All this needs further thought. Plan it in. Noise & traffic need a plan + design first.

③ G Town 11/16/13

Moving amphitheatre to Brookrun also needs planning and thought. Noise & traffic needs to be thoroughly vetted with all neighboring parcels, even at Brookrun.

Go ahead and plant trees now that can survive in the final design & not impact existing leases. 10 years of growth for noise abatement.

④ G Town 11/16/13

What is the city's plan for cameras in public spaces? Who owns this project?

Why isn't sustainability designed in earlier on in the process?

Playgrounds do not a "park" make. How about a lot of trees, natural area with a few pervious trails, a few wild animals habitat...

Less merry go rounds & concrete would be nice. How about a Fishing Pond somewhere at Brookrun?

⑤ G. Town 11/16/13

Provide an over abundance of feedback to neighbors. A quarterly Flyer mailed to homeowners within a 500' radius would help defuse emotional response. Monthly or milestone event postcards of dates + ^{decision meetings} would also be good.

Website email is not the only solution.

★ Encourage neighbors to get involved in the Design and participate with city designers & their contractors. Not that many people will take you up on your offer + it shows Good Faith.

⑥ G. Town 11/16/13

Slow Down! Your target dates seem too aggressive.

Allow the public time to absorb what you intend to do.

2016 is still plenty of time to start.

Fix some more potholes in the meantime.

① Toward 12/16/13

Can someone publish an article about: ① why the city needs sidewalks on both sides of the road?

② Why can we not put bicycles on the sidewalks or at least designate one of the sidewalks on roads with two as a bicycle route. Cyclists make have mishaps w/ pedestrians on walks but at least no one dies. The mass of a car vs a bike is not easily changed either. ^{over}

start building all new roads to have separate bicycle and pedestrian lanes from vehicles.

Establish an electric vehicle policy now.

SENIORS ARE THE LARGEST GROWING SEGMENT — WHY ACCOMMODATE CHILDREN WITH MORE PLAY AREAS? HOW ABOUT JUST A SERENE GREEN WOODED AREA WITH TRAILS & BENCHES?

THE NOISE FROM SHALLOWFORD TRAFFIC WOULD INTERFERE WITH MOST ANYTHING AT AN AMPHITHEATER & CONVERSELY, THE NOISE FROM AMPS WOULD BE AN ANNOYANCE TO RESIDENTS.

INSUFFICIENT PARKING WOULD RESULT IN PEOPLE PARKING IN RESIDENTIAL AREAS
(LOWER)

HAS THOUGHT BEEN GIVEN TO HOW
PEDESTRIANS SAFELY CROSS N. SHALLOWFORD
ON THE MULTIPURPOSE TRAIL WHEN IT
CONNECTS WITH GEORGETOWN?

CARLA MASELAR

Please put the amphitheatre
at Brook Run. It's a much more
desirable location... it's far from traffic,
parking, noise for neighbors and
accessibility.

Have you thought about "Pickle
Ball" courts? Great new game
for "seniors" put them where
the amphitheatre is planned.

Too many "playgrounds". Two on
the 5 are right & one on the
16 are right. Take one out,
(over)

When the playgrounds are decided
Please put the benches for the
parents, grandparents in a place
that a tree can shade them.

Has one large pavillion been
planned for 8-10 picnic
tables to go under it, for large
"family reunions"?

Mary Reesmejer
