

MEMORANDUM

To: Mayor and City Council
From: Ronnie Kurtz, Planner II
Date: January 14, 2019
Subject: Amendment to City of Dunwoody Ordinances
Chapter 20—Hanging Signs

ITEM DESCRIPTION

Request to consider text amendment to the sign code (Chapter 20). The proposed change would allow for “hanging signs” to be permissible as ground signs to be installed at the entrance of residential subdivisions.

DISCUSSION

As code currently reads, all ground signs must be monument signs, with a base of a width not less than the width of the sign face. Such signs are typically costly and, in some instances, these regulations have priced out residential subdivisions from installing new signage at their entrances.

The proposed amendment inserts a definition for a “hanging” sign into Sec. 20-3, defined as “a permanent sign that projects outward from a fixed pole, typically at a 90-degree angle, and hangs downward from a bracket or support.” Sec. 20-53 is amended to permit hanging signs as subdivision entrance signs only. Such signs are already common in the City at the entrance of subdivisions as legal nonconforming signs; the effect of the amendment would thus be to allow all residential subdivisions to have such signs.

Additionally, prior the introduction of the new definition, the term “hanging sign” was used in the code as a synonym for “shingle sign.” References to these types of signs have been altered to accurately reflect the new definitions.

RECOMMENDATION

Staff recommends Mayor and City Council approve the attached draft changes to Chapter 20, as prepared.
