

## **MEMORANDUM**

To: City Council

From: Richard Hathcock, Senior Planner

Date: January 11, 2021

Subject:

Laurel David, attorney for the owner, on behalf of JSJ Perimeter, owner of 84, 130, and 140 Perimeter Center East, Dunwoody, Georgia seeks the following:

- 1. **RZ 20-03:** a rezoning from the current C-1 conditional (Commercial) District to a PC-2 (Perimeter Center) District.
- 2. **SLUP 20-02(A):** Special Land Use Permits to allow an exception to Section 27-104(c), Figure 27-104-3, for an increase in the maximum impervious coverage from 65% (or 75% with semi-pervious cover) to a total of 85% coverage of both impervious and semi-pervious coverage;
- SLUP 20-02(B): Special Land Use Permit from Chapter 27, Section 27-104(f)(2) to allow residential use of age-restricted multi-family housing. Section 27-104(f)(2);
- 4. **SLUP 20-02(C):** To allow an exception to Section 27-105(b)(2) to reduce the required interior side yard setback from 15 feet to 0 feet and to reduce the rear yard setback of 30 feet to 10 feet;
- 5. To allow and exception to Section 27-105(b)(2) to reduce the minimum floor-to-floor height required at the ground level from 14 feet to 9 feet for portions of the multi-family building that do not contain lobby or amenity spaces; WITHDRAWN and
- 6. **SLUP 20-2(D):** To allow an exception to Section 27-105(b)(2) to allow both residential and commercial uses at the street facing ground floor level for a horizontal length of 100 feet from the eastern façade of the multifamily building that will not be service or lobbies for lodging. The street facing ground level of the remainder of multi-family buildings shall contain active uses for a minimum depth of 10 feet.

The tax parcel numbers for the site tax parcel number 18-347-01-013,-021, and -028.

Community Development

4800 Ashford Dunwoody Road Dunwoody, GA 30346 Phone: (678) 382-6800 dunwoodyga.gov

## **BACKGROUND**

The subject site consists of three lots of record, owned in common totaling 2.86 acres. The property consists of a corner lot (84 Perimeter Center East), which fronts the east side of Ashford-Dunwoody Road and south side of Perimeter Center East, and two vacant wooded lots (140 and 130 Perimeter Center East) to the east, both fronting Perimeter Center East. The site currently contains a vacant one-story building, formerly occupied as a bank. The site is zoned C-1 conditional and is found within the Perimeter Center Overlay.

#### **SITE PLAN ANALYSIS**

In 2008, the properties were rezoned from O-I to C-1 conditional (Z-08-14825) to allow for the development of a hotel, a 7,050 square foot full service restaurant, a 5,369 square foot meeting space, and a 70,000 square foot fitness club. Around the same time, the site also received a special land use permit to increase the height of the hotel from 2 to 12-stories (SLUP-08-14791). In 2019, the property's site plan and zoning conditions were amended to allow a 11-story, 160-room hotel and two additional multi-story buildings containing approximately 43,140 square feet of commercial uses, including but not limited to restaurants and retail, patio and rooftop terrace seating and a multi-story parking deck (see MA 19-02).

Due to economic changes that have occurred in the market, the applicant proposes to rezone the subject properties to a PC-2 (Perimeter Center) District. Other than changing the hotel

#### **Community Development**

use to age restricted rental housing, the development is similar to what was approved in 2019 under case MA 19-02. Review of the submitted site plan indicates that the multi-family building will be fourteen (14) stories in height, and will contain a maximum of 225 units that will be age-restricted to persons 55 years and older. The applicant has also submitted several Special Land Use Permit (SLUP) requests concurrently with this application to allow the following:

- To allow an exception to Section 27-104(c), Figure 27-104-3, for an increase in the maximum impervious coverage from 65% (or 75% with semi-pervious cover) to a total of 85% coverage of both impervious and semi-pervious coverage (see exhibit attached). The total maximum impervious/semi-impervious lot coverage allowed when MA 19-02 was approved was 86%, per variances approved 8/12/2008, Page 2 of 5 266776 Application No. A-08-14932. The lot coverage included in the MA 19-02 approval was 83.7%;
- To allow residential use of age-restricted multi-family housing per Section 27-104(f)(2);
- 3. To allow an exception to Section 27-105(b)(2) to reduce the required interior side yard setback from 15 feet to 0 feet and to reduce the rear yard setback of 30 feet to 10 feet. The setbacks allowed when MA 19-02 was approved were zero for side and rear yards, per variances approved 8/12/2008, Application No. A-08-14932. The setbacks included in the MA 19-02 approval were zero feet for the interior side yard and 8 feet for the rear yard;
- 4. To allow an exception to Section 27-105(b)(2) to allow both residential and commercial uses at the street facing ground floor level for a horizontal length of 100 feet from the eastern façade of the multi-family building that will not be service or lobbies for lodging. The street facing ground level of the remainder of multi-family buildings shall contain active uses for a minimum depth of 10 feet. The need for this SLUP is necessary to allow residential uses on the ground floor of a mixed-use Shopfront Building to activate the streetscape for age restricted rental and to request variances for setbacks and maximum impervious coverage required by the PC-2 zoning in order to provide the setbacks and impervious coverage similar to that previously approved by MA 19-02. The SLUPs are needed due to the difference in zoning requirements between C-1 and PC-2.

The commercial component of the development fronts Ashford Dunwoody Road, and the 225-unit multi-family building fronts Perimeter Center East. All of the parking, which includes a 5-level, 504 space parking deck, and 14-space surface parking lot are located within the interior of the site, behind the commercial and multi-family buildings. Access into the development is proposed via a full access intersection at the rear of the site. Additionally, there is a right-in and right-out driveway found near the middle of the site along Perimeter Center East. The submitted site plan indicates that the site's storm water detention facility is proposed underground below the surface parking lot.

In regards to streetscapes, the Ashford Dunwoody Road frontage incorporates an 8-foot street buffer, 8-foot sidewalk, and 16-feet of extra sidewalk or patio dining; and at Perimeter Center East, the frontage incorporates a 6-foot street buffer, 6-foot sidewalk, and 7 to 10-foot of extra sidewalk, landscape buffer or potential patio seating. In an effort to activate the streetscapes, all buildings are designed in proximity to their adjoining street frontages. The prominent building materials proposed include masonry tile, glass, stucco, and wood veneer.

#### **Community Development**

The submitted open space calculations indicate that the site will consist of 15.18% open space.

All of the sites 235 trees, which include approximately 75% pines, will be removed. To satisfy the tree density requirements, several deciduous canopy trees of a minimum 4-inch caliper and understory canopy trees will be planted throughout the site. As well, the owner will be required to pay a sum into the tree bank for the replacement density balance of trees removed, as determined by the tree ordinance and City Arborist.

## **SURROUNDING LAND ANALYSIS**

The land uses around the site consists of a service station to the north, an apartment building to the east, and a bank and office complex to the south. Retail and restaurant uses, including the Perimeter Center Shopping Mall, are found west of the site, across Ashford Dunwoody Road.

Direction	Zoning	Future Land Use	Current Land Use
N	C-1 & OCR	Perimeter Center	Commercial- Service Station
S	O-I	Perimeter Center	Office-Chase Bank, Ravinia Office Complex
E	O-I	Perimeter Center	Apartment Complex
W	C-1	Perimeter Center	Retail/Restaurants- Perimeter Mall

### **ZONING AMENDMENT REVIEW AND APPROVAL CRITERIA**

Chapter 27, Section 27-335 identifies criteria for evaluating applications for zoning amendments. No application for an amendment shall be granted by the City Council unless satisfactory provisions and arrangements have been made concerning each of the following factors, all of which are applicable to each application:

1. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan;

The future land use map identified in the "2015-2035 Comprehensive Plan" (Plan) identifies the future land use of subject property as a Perimeter Center ("PC") District, which is consistent with this zoning request. In addition, the Plan identifies that the subject site be made up of "employment uses, residential buildings, and limited shop front retail, and services", and be developed into livable center that include a mix of housing, first-class office, and retail in an environment that includes pedestrian and bicycle-oriented amenities, which aligns with the nature of this development.

Secondly, the development is in keeping with the Perimeter LCI goals and intended PC districts as it places the buildings close to the sidewalk to create pedestrian friendly streetscapes. Equally as important, the project is consistent with the Perimeter Center Overlay in that it creates new pedestrian amenities along two street frontages, and develops a new street and pedestrian path that provides potential for future connectivity between Perimeter Center East and Ravinia Parkway, which provides further support for approval.

- 2. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;
  - In light of the mix of retail, restaurant, and multi-family uses nearby, the proposed mix of retail, restaurant, and multi-family use appears to be suitable for the site.
- 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;
  - While the property has economic use as zoned, it remains limited in flexibility, as it must be developed in accordance with a 2019 approved site plan that contains a 12-story hotel, and retail and restaurant uses. Due to the covid-19 pandemic and impacts to the hotel market, this plan has not come to fruition. Allowing changes to conditions would give the property broader economic use that provides more flexibility that meets today's market conditions.
- 4. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;
  - The rezoning proposal aligns with the mix of multi-family, retail and restaurant uses in the area. The zoning proposal is not expected to adversely affect the existing use or usability of adjacent or nearby property.
- 5. Whether there are other existing or changing conditions affecting the use and development of the property that provide supporting grounds for either approval or disapproval of the zoning proposal;

The Perimeter Center Overlay and PC districts were adopted in 2016. Emphasizing mixed-use development and high urban design standards, these requirements have begun to reshape the land use and urban design patterns within the Perimeter area. Considering the development will be mixed-use with shopfronts built adjacent to the sidewalk, and it will have pedestrian friendly streetscapes mixed in with open space, the project would appear to align with the vision of a PC-2 zoned site. Moreover, the project aligns with the goals of the Perimeter Center Overlay as it improves modes of travel and transportation connectivity, specifically through the development of new wider sidewalks, and construction of a new street connection, which provides support for approval.

- 6. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources;
  - The zoning proposal will not affect historic buildings, sites, districts or archaeological facilities.
- 7. Whether the zoning proposal will result in a use that will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

  The addition of 43,140 square feet of retail, restaurant, and commercial uses and a 225-unit senior housing will result in additional traffic to the area. However, based on findings of the updated traffic study, the potential residential portion of the development is projected to generate 502 fewer gross daily project trips, or 36% less traffic, compared to the previous Hotel gross project trip generation per the September 30, 2019 traffic study.

Still, tTo help mitigate the traffic impacts of the area, the developer has agreed to build a new road connection from Perimeter Center East to Ravinia Parkway and remove a curb cut on Ashford Dunwoody Road to improve traffic safety. However, completion of this road connection remains contingent on the approval of the owner of the Ravinia Office complex, which is located immediately south of the site. It is anticipated that the development will impact the southbound left-turn lane queue length; therefore, the traffic study recommends lengthening the southbound left-turn lane storage by 60 feet. Per condition 14, the developer has agreed to contribute up to \$20,000 towards the extension.

## SPECIAL LAND USE PERMIT REVIEW AND APPROVAL CRITERIA

Chapter 27, Section 27-359 identifies the following criteria to be applied by the department of planning, the planning commission, and the city council in evaluating and deciding any application for a special land use permit. No application for a special land use permit shall be granted by the city council unless satisfactory provisions and arrangements have been made concerning each of the following factors, all of which are applicable to each application:

1. Whether the proposed use is consistent with the policies of the comprehensive plan; The proposed use is consistent with the current Comprehensive Plan's vision for providing a mixed-use livable center, which calls for a mix of residential and retail uses. In addition, the development is requesting approval of a special land use permit to allow age restricted rental. This request aligns with the Comprehensive's Plans goal of providing aging in place housing, as it allow a

new option for housing specific to active adults and seniors that chose to downsize from their larger homes.

2. Whether the proposed use complies with the requirements of this zoning ordinance; The proposed PC-2 zoning is explicitly called out in the Perimeter Center Regulating Plan under Section 27-104(1), so a rezoning to a PC-2 would be comply with the requirements of the zoning ordinance. As noted, other than the changing the hotel with senior housing, much of the site plan remains identical to the conditional site plan MA19-02 that was approved in 2019.

Whether the proposed site provides adequate land area for the proposed use, including provision of all required open space, off-street parking and all other applicable requirements of the subject zoning district;

The subject parcel is currently zoned C-1 conditional and contains approximately 2.86 acres of land. This is adequate for the use as proposed by the applicant.

- 3. Whether the proposed use is compatible with adjacent properties and land uses, including consideration of:
- a. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of noise, smoke, odor, dust or vibration generated by the proposed use;
  - The proposed use will not generate adverse impacts from excessive noise, smoke, odor, dust, or vibration towards adjoining land uses.
- b. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the hours of operation of the proposed use;
  - The proposed use will not create adverse impacts upon any adjoining land use due to the hours of business operations.
- c. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner of operation of the proposed use;
  - The use will not be substantially different from what is currently carried out in the surrounding area, so it should not create adverse impacts on neighboring land uses.
- d. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the character of vehicles or the volume of traffic generated by the proposed use;
  - It is unlikely that adjacent land uses will be adversely affected by the volume of cars created by the proposed use, as it is currently within a busy commercial node.
- e. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and
  - The applicant will be constructing the size, scale and massing of the proposed building in compliance with the PC-2 standards, which allows building to be up to 14 stories in height.

#### Community Development

- f. Whether the proposed plan will adversely affect historic buildings, sites, districts, or archaeological resources.
  - The proposed plan will not have an impact on any historic buildings, sites, districts, or archaeological resources.
- 4. Whether public services, public facilities and utilities—including motorized and nonmotorized transportation facilities—are adequate to serve the proposed use; The current infrastructure is generally adequate to serve the proposed use. However, the Public Works Department has indicated that there may be some impacts to traffic on the southbound left turn lane on Ashford Dunwoody Road to Perimeter Center East. As such, staff has included a condition stating that the owner will contribute up to \$20,000 to extend the southbound turn lane for left turns from Ashford Dunwoody Road on to Perimeter Center East.
- 5. Whether adequate means of ingress and egress are proposed, with particular reference to nonmotorized and motorized traffic safety and convenience, traffic flow and control and emergency vehicle access;
  - The existing infrastructure has the capacity to adequately and safely control traffic flow with sufficient modifications. Staff has included a condition stating there here shall be no left turn lane into the western most driveway from Perimeter Center East into the development. Also, access at this driveway will be restricted to right in and right out turns only.
- 6. Whether adequate provision has been made for refuse and service areas; and *Existing refuse and services are adequate.*
- 7. Whether the proposed building as a result of its proposed height will create a negative shadow impact on any adjoining lot or building.
  - No shadows study has been performed at this time, so staff is unaware of an impacts of shadows to adjoining property.

## **PLANNING COMMISSION RECOMMENDATION**

The Planning Commission of the City of Dunwoody held a Hybrid Meeting on December 8, 2021 at 6:00 PM. Following discussion, they voted 5-0 to approve the rezoning and 4 SLUPs with all of the staff recommended conditions.

### STAFF RECOMMENDATION

Based on the written findings above, staff recommends the request to rezone from a C-1 conditional to a PC-2 and SLUPs 20-2(A), (B), (C), and (D) be **approved** subject to the following exhibit and conditions:

EXHIBIT A: Site plans, completed by Phillips Architecture, dated October 30, 2020.

EXHIBIT B: Streetscaping Sections, completed by Phillips Architecture October 25, 2019, dated March 9, 2020 and updated October 5, 2020.

EXHIBIT C: Open Space Diagram, completed by Phillips Architecture, dated October 30, 2020.

1. The owner shall develop the site in general conformity with "Exhibit A" with minor changes allowed as defined by Section 27-337(b) or necessary changes to meet conditions of zoning

Community Development

4800 Ashford Dunwoody Road Dunwoody, GA 30346 Phone: (678) 382-6800 dunwoodyga.gov

- or land development requirements made necessary by actual field conditions at the time of development;
- 2. The owner shall construct the streetscaping in general conformity with "Exhibit B". Any minor variations to the streetscapes made necessary by actual field conditions at the time of development shall be subject to approval by the Public Works Director and Community Development Director;
- 3. Major façade materials shall include natural brick, natural stone and natural wood, hard coat stucco and glass, natural brick veneer or stone veneer materials and other high quality materials approved by the Community Development Director during the permit review process:
- Stamped brick and cultured stone, manufactured stone, or other imitation materials shall be prohibited. Synthetic EIFS may be used only as accents for cornices or other minor decorative elements;
- 5. Lot coverage shall be a maximum of 85% and include hardscape outdoor patio, and pedestrian or plaza areas, as shown on "Exhibit C";
- 6. No monument sign shall be constructed along the Ashford Dunwoody Road frontage. As an alternative, the owner is allowed one sign with a sign area up to 120 square feet attached to the building. The design of such signage shall be incorporated into the design of the building as approved by the Community Development Director during the site plan review process. Other building signage will be allowed in accordance with Section 20-57;
- 7. All trash/recycling enclosure(s) must be screened from view of public rights-of-way by landscaping and a solid masonry wall at least eight feet in height;
- 8. Prior to certificate of occupancy, the owner shall pay a sum into the tree bank for the replacement density balance of trees removed, as determined by the tree ordinance and City Arborist;
- 9. All utilities servicing the site shall be underground with the exception of required above-ground elements, such as transformers and cable boxes;
- 10. All mechanical equipment (e.g., air conditioning, heating, cooling, ventilation, exhaust and similar equipment) shall be roof mounted and screened in all directions by walls or parapets or will be enclosed in opaque structures to hide the mechanical equipment from view from public right-of-way within 200 feet;
- 11. Prior to the issuance of certificates of occupancy, the Owner will convey to the City rightof-way to incorporate the sidewalk and landscape buffers along Ashford Dunwoody Road and Perimeter Center East;
- 12. Prior to the issuance of certificates of occupancy, the Owner will convey an easement on the eastern portion of the development sufficient to accommodate two travel lanes and two bicycle lanes as shown on Exhibit A to connect to adjacent property to the south. It will be responsibility of others to connect to this public easement outside of the property lines of the development;
- 13. There shall be no left turn lane into the western most driveway from Perimeter Center East into the development. Access at this driveway shall be restricted to right in and right out turns only;
- 14. The owner will contribute up to \$20,000 to extend the southbound turn lane for left turns from Ashford Dunwoody Road on to Perimeter Center East;
- 15. The uses on the site shall be limited to eating and drinking establishments, brokerage services, office, medical facilities, retail sales, lodging, personal improvement, office, nontraditional bank without a drive-thru such as a banking café, credit union, savings and loans, and laundry drop-off and pick-up service;
- 16. A crosswalk and pedestrian refuge shall be provided across Perimeter Center East on the northeastern corner of the property pursuant to approval of the Public Works Director;

#### **Community Development**

- 17. The age-restricted rental building shall not exceed 14 stories in height;
- 18. Parking deck openings that face the apartment building to the east shall be shielded with landscaping and/or an architectural mesh, grille, screening or other cladding component that enhances the architectural character of the structure. The final design of the parking deck shall be subject to approval of the Community Development Director; and
- 19. The completed architectural drawing shall be submitted by the Community Development Director to City Council for consideration.
- 20. Both residential and commercial uses are allowed at the street-facing ground floor level for a horizontal length of 100 feet from the eastern façade of the multi-family buildings. The street-facing ground level of the remainder of the building shall contain active uses for a minimum depth of 10 feet. Such active uses may include, but shall not be limited to, retail space, restaurants or other food sales, building leasing areas, resident lounges, lobbies, fitness centers, cycle training and cycle maintenance areas, live-work units, and residential stoops.

### **ORDINANCE 2021-XX-XX**

AN ORDINANCE TO AMEND THE CITY OF DUNWOODY ZONING CLASSIFICATION AND MAP FOR ZONING CONDITIONS OF LOT PARCEL NUMBER 18 350 01 009 and 18 350 01 011 IN CONSIDERATION OF ZONING CASE RZ 20-04 (301 and 303 Perimeter Center North, Dunwoody, Georgia 30346)

- **WHEREAS:** Notice to the public regarding said modification to conditions of zoning has been duly published in The Dunwoody Crier, the Official News Organ of the City of Dunwoody, Georgia; and
- WHEREAS, Perimeter Sterling Properties, LLLP seeks permission to rezone property from its current OCRc (Office, Commercial, Residential) District conditional zoning classification to a PC-2 (Perimeter Center) District in order to allow new development in the area; and
- **WHEREAS:** the properties, Tax Parcels 18 350 01 009 and 18 350 01 011, are located on the southwestern side of Perimeter Center North at the intersection of Meadow Land Road, and consists of 4.15 acres; and
- **WHEREAS,** the properties are currently developed and contain an eight story office building, a six story office building and a seven level parking deck; and
- **WHEREAS:** the applicant is not requesting any new construction and the existing structures will remain; and
- **WHEREAS,** the Mayor and City Council find that the proposed use aligns with the Dunwoody Comprehensive Plan, which calls for the Perimeter Center District to be a livable, regional center with a mix of housing, first-class office and retail; and
- **WHEREAS,** notice to the public regarding said rezoning and modification to conditions of zoning has been duly published in *The Dunwoody Crier*, the Official News Organ of the City of Dunwoody; and
- **WHEREAS:** the Mayor and City Council have conducted a public hearing as required by the Zoning Procedures Act prior to adoption of this Ordinance.

**NOW THEREFORE,** THE MAYOR AND CITY COUNCIL OF THE CITY OF DUNWOODY, GEORGIA HEREBY **ORDAIN AND APPROVE** the rezoning of said property from OCRc (Office, Commercial, Residential) District conditional zoning classification to a PC-2 (Perimeter Center) District subject to the following conditions:

Exhibit A: Site Plan dated 08-17-2015.

## **MEMORANDUM**

To: Mr. John DiGiovanni

From: Mr. John D. Walker, P.E., PTOE

Date: November 18, 2020

RE: 84 Perimeter – City of Dunwoody – Trip Generation Comparison Memo

Kimley-Horn is pleased to provide this opinion memorandum regarding the project trip generation potential for the proposed *84 Perimeter* development in the City of Dunwoody, Georgia.

### PROJECT OVERVIEW

The approximate 2.8-acre site is located just south of Perimeter Center East, just north of Ravinia Road, and just east of Ashford Dunwoody Road in the City of Dunwoody, Georgia. The site location map and site aerial are shown on **Figures 1 and 2**. A September 2019 Traffic Study was completed for this mixed use site that included a proposed hotel.

Now, as currently envisioned, the proposed development will replace the hotel with a proposed multifamily building. The purpose of this memo is to determine how the traffic compares between hotel and multifamily, therefore, the following scenarios were considered for the comparison:

- 1. Hotel 160 Rooms (per the September 30, 2019 Traffic Study)
- 2. Age-Restricted / Senior Adult Housing 225 Units
- 3. Multifamily Housing (Mid-Rise) 225 Units

## TRIP GENERATION

Project traffic, for the purposes of this evaluation, is defined as the vehicle trips expected to be generated by the Subject Property. Anticipated trip generation for the *84 Perimeter* development was calculated using rates and equations contained in the Institute of Transportation Engineers' (ITE) *Trip Generation Manual*, 10<sup>th</sup> Edition, 2017. This analysis compared the projected trips associated with the previously studied Hotel use (ITE Code 310) versus Age-Restricted / Senior Adult Housing - Attached (ITE Code 252) and Multifamily Housing (Mid-Rise) (ITE Code 221).

The density and the anticipated gross project trip generation comparison are summarized in **Table 1**.

Mr. John DiGiovanni, November 18, 2020, Page 2

	Table 1: Trip Generation Comparison (Gross Trips)  84 Perimeter											
Scenario Land Use	ITE	Donoity	D	Daily Traffic		AM Peak			PM Peak Hour			
Scenario	Land Use	Code	Density	Total	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit
	Per the September 30, 2019 Traffic Study											
1.	Hotel	310	160 rooms	1,380	690	690	75	44	31	94	48	46
				Curre	ntly Con	sidered						
2.	Age-Restricted / Senior Adult Housing – Attached	252	225 units	878	439	439	45	16	29	56	31	25
3.	Multifamily Housing (Mid- Rise)	221	225 units	1,224	612	612	76	20	56	96	59	37

### SUMMARY

Based on the findings above, the potential residential portion of the *84 Perimeter* development is projected to generate 502 fewer gross daily project trips, 30 fewer AM peak hour trips, and 38 fewer PM peak hour trips for Age-Restricted / Senior Adult Housing (Scenario 2), or 156 fewer daily gross project trips, 1 more AM peak hour trip, and 2 more PM peak hour trips for Multifamily Housing (Scenario 3), compared to the previous Hotel gross project trip generation per the September 30, 2019 traffic study. Or, in other words, based on the projected daily traffic, Scenario 2 (Age-Restricted / Senior Adult Housing) generates 36% less traffic than hotel, and Scenario 3 (Multifamily Housing) generates 11% less traffic than hotel.

I hope this information is helpful. If you have any questions concerning this letter or need additional information, please do not hesitate to contact me.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

John D. Walker, P.E., PTOE Senior Vice President

## **PERIMETER CENTER**

## Vision/Intent

Perimeter Center will be a visitor friendly "livable" regional center with first-class office, retail, entertainment, hotels, and high-end restaurants in a pedestrian and bicycle-oriented environment. The area will serve as a regional example of high quality design standards. The City of Dunwoody works in partnership with the Perimeter Community Improvement Districts (PCIDs) and adjacent communities to implement and compliment the framework plan and projects identified in the Perimeter Center Livable Centers Initiative study (LCI) and its current and future updates.

In the future, the area should add public gathering space and pocket parks, venues for live music and entertainment and continue to create transportation alternatives, mitigate congestion, and reduce remaining excessive surface parking. The area creates the conditions of possible true "live-work" environment. All future development continues to emphasize high quality design standards and building materials and incorporates the current national best practices on energy efficiency, where possible.

The City of Dunwoody recognizes the value of creating mixed-use, transit-oriented development within walking distance of public transit stations. However, the City has concerns about the impact of such development on the City's infrastructure and schools.

## **Future Development**

The Perimeter Center Character Area will be divided into four subareas (PC-1, PC-2, PC-3, and PC-4) which match the draft proposed overlay district outline that the City is reviewing as part of the Perimeter Center Zoning Code. This area was the subject of a previous LCI Study. The cities of Dunwoody, Sandy Springs, and Brookhaven work in partnership with the Perimeter Community Improvement Districts (PCIDs) to implement and complement the framework plan and projects identified in the Perimeter Center Livable Centers Initiative study (LCI) and its current and future updates.

For specific recommendations on height, density and use refer to the provisions of the Perimeter Center Overlay District and Zoning, available from the Dunwoody Community Development Department.

FIGURE 13: Perimeter Center Character Area Map

PC-1: Intended to apply to the central core area of Perimeter Center, including the area directly surrounding the Dunwoody MARTA train station. This district allows for the highest intensity of buildings, a high level of employment uses, and active ground story uses and design that support pedestrian mobility.

PC-2: Made up primarily of employment uses and limited shop front retail, residential, and services.

PC-3: A smaller scale, less intensive commercial district, permitting both shop front and office buildings.

PC-4: Made up primarily of residential uses at a scale that provides a transition between the intensity of Perimeter Center and the surrounding single-family residential neighborhoods.

## **Action Items**

▲ Housing in Perimeter Center

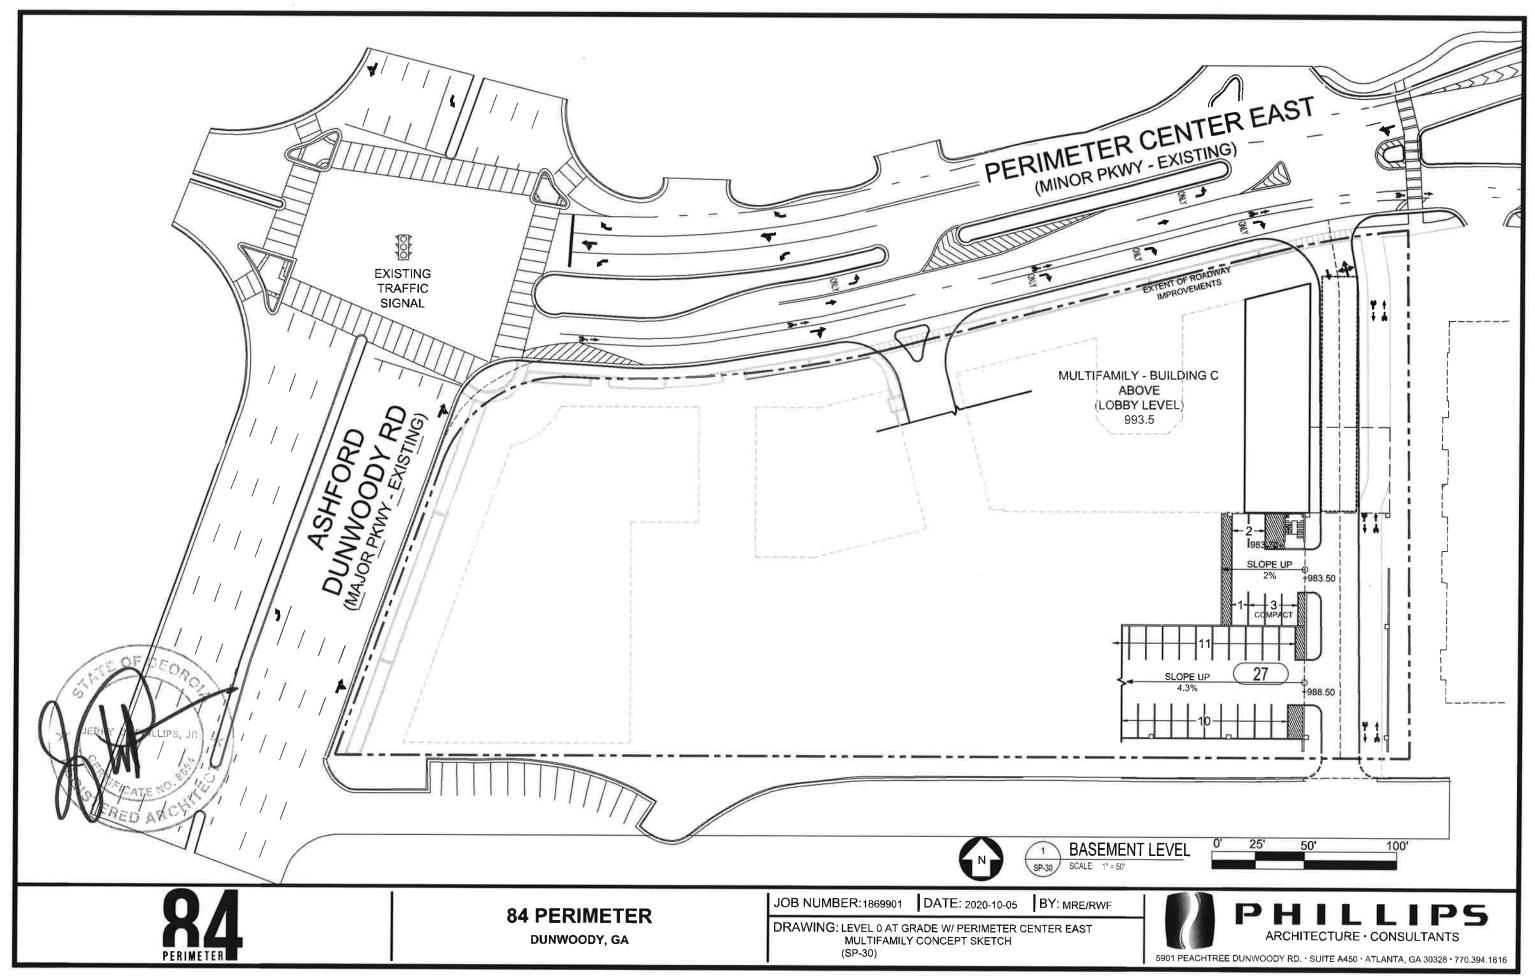

- New development will include amenities and provide public functional green space.
- New development will be mindful of school capacity issues and applicants will work with Board of Education and City for better resolution of school issues.
- Reduce surface parking and promote livable centers in the immediate areas surrounding MARTA station.
- Encourage hotel and convention development near MARTA in order to foster commerce along the mass transportation route.
- Achieve a lifelong-community for residents who can age in place with safe access to medical, recreational and other necessary services.
- Create bicycle, pedestrian and non-auto related transportation options to connect with the rest of the City of Dunwoody.
- The 2012 PCID Commuter Trail System Master Plan proposed a network of commuter trails connecting to the MARTA station.
- The 2012 PCID Perimeter Circulator Implementation report recommended circulator transit to provide first/ last mile connectivity for commuters and reduction in CID area congestion.
- The PCIDs have proposed Perimeter Park at the Dunwoody MARTA Station.
- Work with the Perimeter Transportation Management Association (TMA) to actively reduce automobile dependency and emerge as a leader in alternative transportation for the region.
- Work to strengthen Board of Education relationship for creative solutions to school capacity.
- Work with the PCIDs' boards to implement vision.
- Coordinate with the City of Sandy Springs for LCI Updates and implementation.
- Coordinate with the Atlanta Regional Commission (ARC) for implementation of future LCI study updates.
- Coordinate with MARTA regarding Bus Rapid Transit (BRT) (or other regional service) and urban design surrounding all transit stations.
- Look for ways to encourage live entertainment for the benefit of visitors and residents.

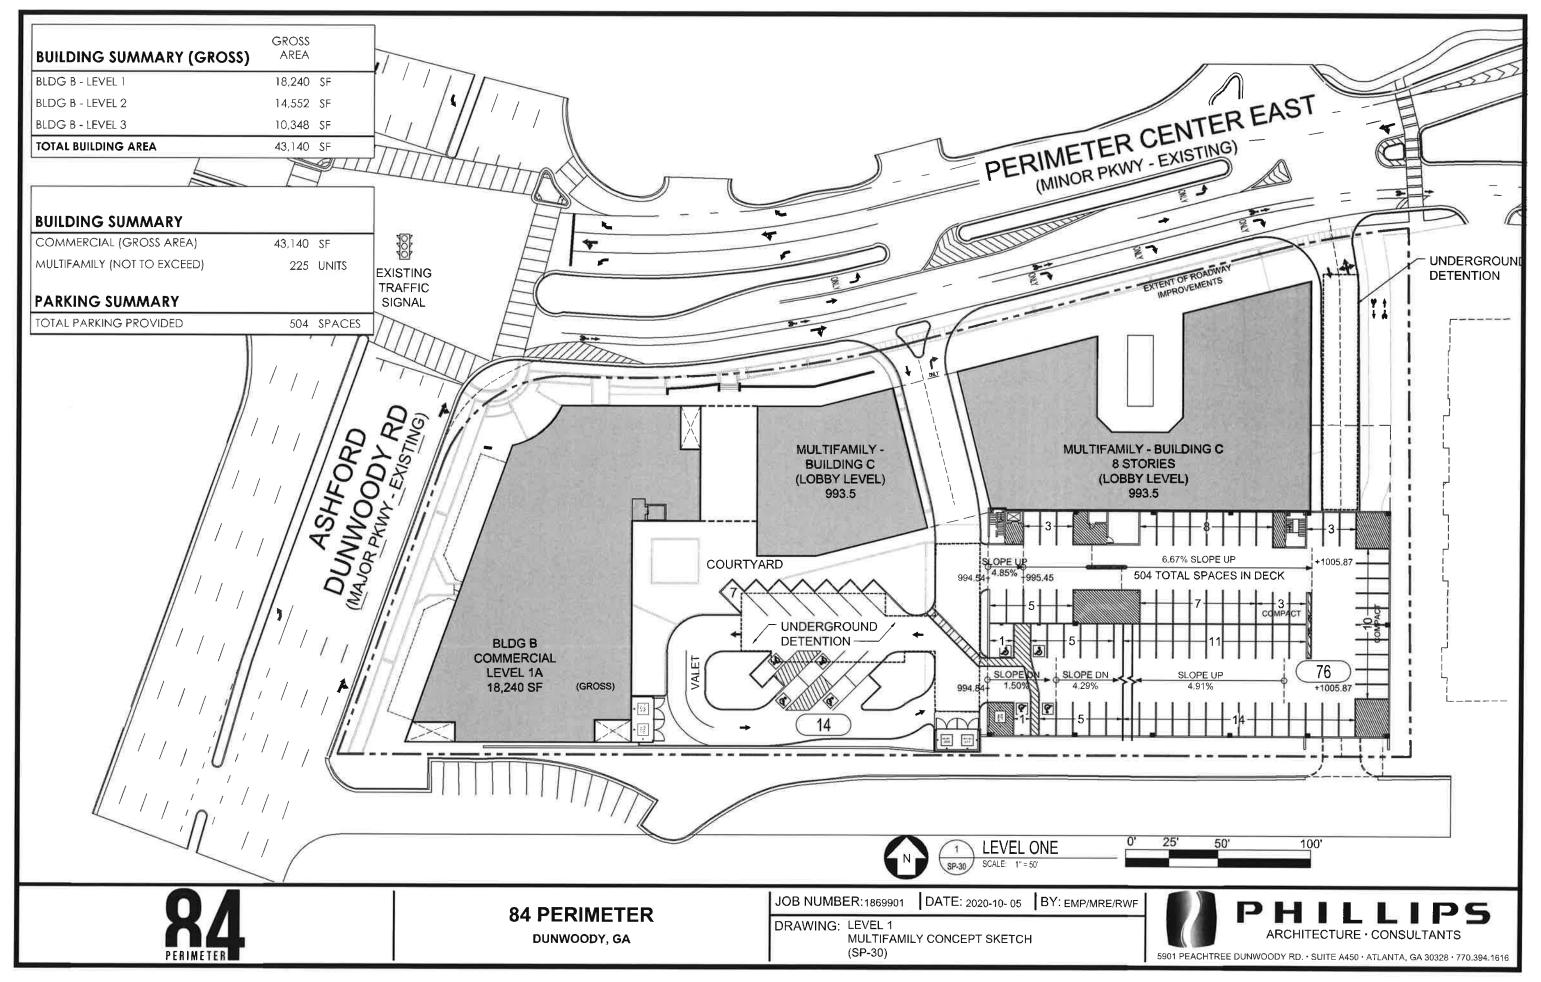

# COMMUNITY IMPROVEMENT DISTRICT (CID)

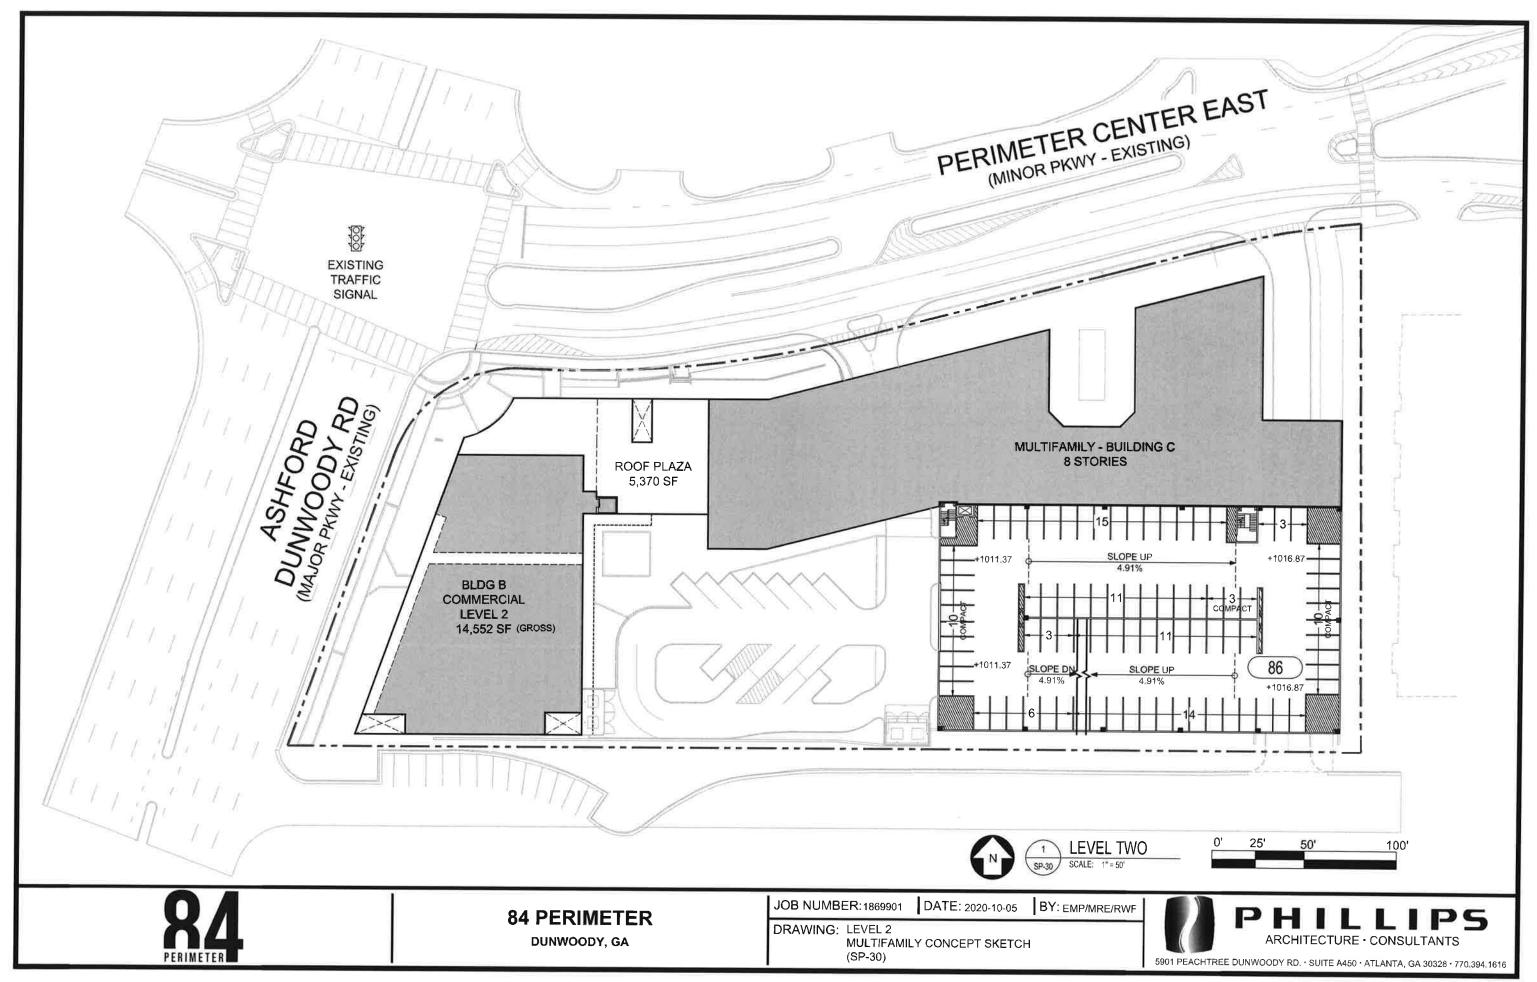

A Community Improvement District (CID) is an authorized self-taxing district dedicated to Infrastructure improvements within its boundaries. The PCIDs are governed by two boards – one each for Fulton and DeKalb. The PCIDs spent or leveraged public funds to invest \$55 million in Dunwoody alone; over \$7 million from ARC's LCI program was directed to the PCIDs. This makes it one of the most, if not the most, successful CIDs in the region. The PCIDs' mission focuses exclusively on transportation improvements:

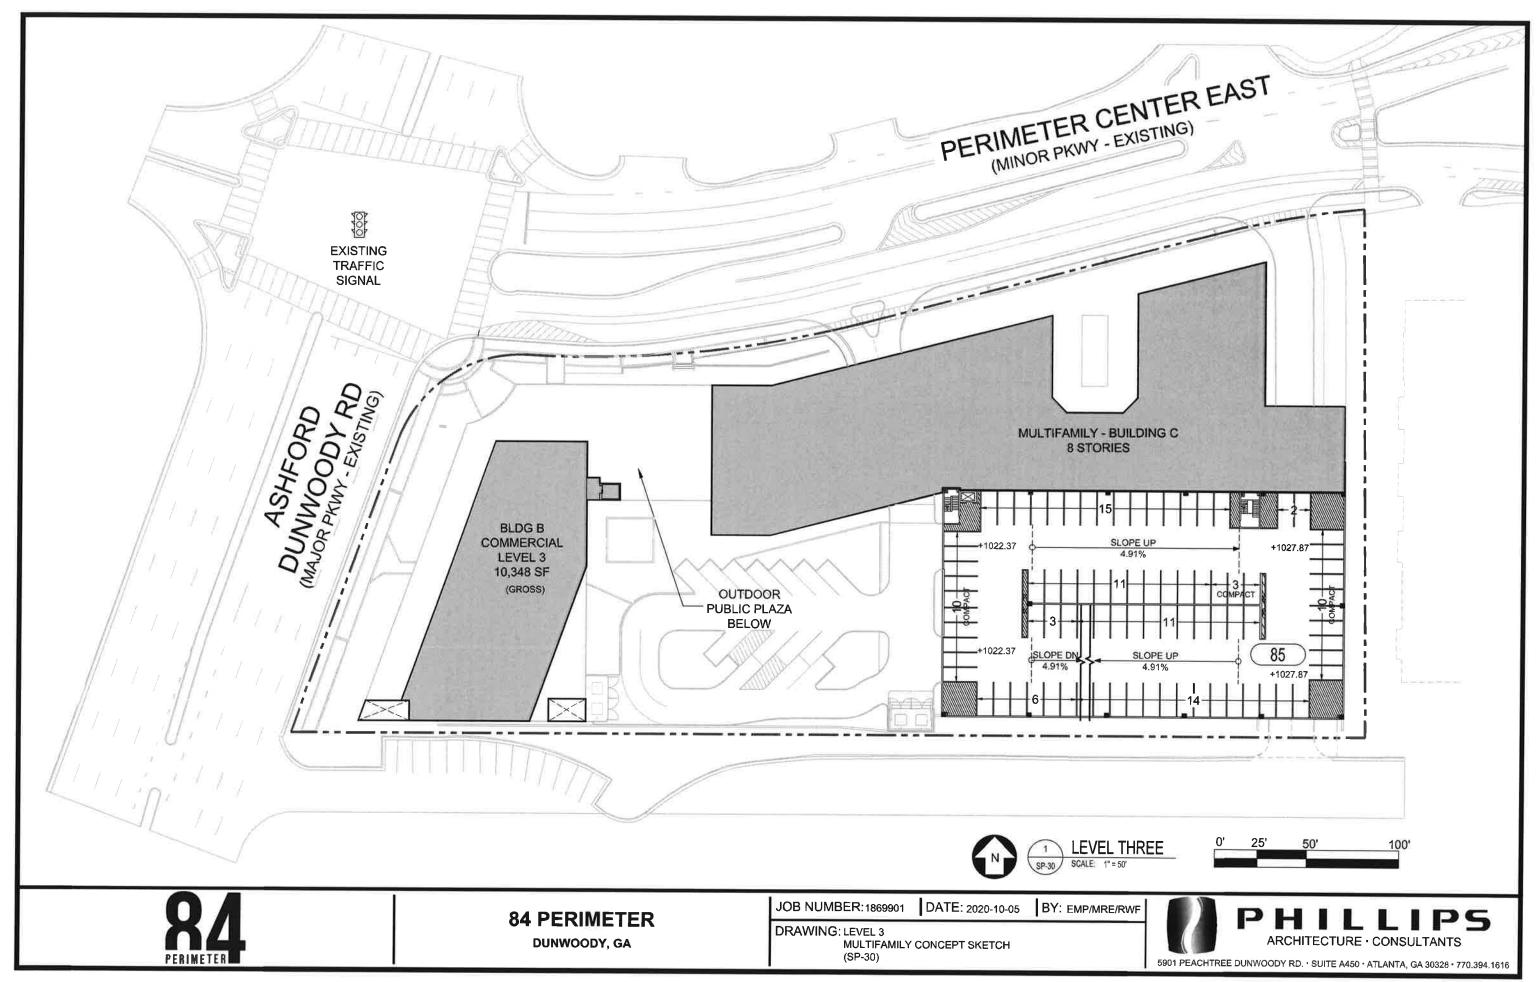

To work continuously to develop efficient transportation services, with an emphasis on access, mobility, diversification and modernization.

#### **Amendment Application**

#### **Community Development**

4800 Ashford Dunwoody Road | Dunwoody, GA 30338 Phone: (678) 382-6800 | Fax: (770) 396-4828

The requirements of this application apply to comprehensive plan land use map amendments, zoning map amendments, zoning ordinance text amendments and major amendments to one or more conditions attached to previously approved zoning map amendments. If an applicant needs to further relax the dimensional standards of the Zoning/Land Development Ordinances for a specific property for the purpose of construction, s/he can request a variance to the text of the Zoning Ordinance. Such a request might seek to modify the strict terms of the height, area, placement, setback, yard, buffer, landscape strip, parking and loading or other regulations, but these applications will not occur concurrently, and the approval of one does not indemnify the approval of the other. The City Council, following recommendation by the Planning Commission, shall determine whether the proposed amendment meets the applicable requirements.

No application for an amendment to the land use plan or amendment to the official zoning map or a major amendment/modification to a condition of zoning shall be filed and/or accepted for filing until such time as the applicant has conducted an applicant-initiated meeting in accordance with Chapter 27, Section 27-306. The purpose of the applicant-initiated meeting requirements is to help educate applicants for development approvals and neighbors about one another's interests, to attempt to resolve issues in a manner that respects those interests and to identify unresolved issues. Written notice is required for all applicantinitiated meetings and will be sent via first class mail to the owners of all residentially zoned property within 1,000 feet of the boundaries of the subject property, as those property owners are listed on the tax records of DeKalb County. The notices must be mailed at least 20 days before the date of the applicantinitiated meeting. Written notices must indicate the nature of the application and the date, time, place and purpose of the meeting. All meetings will be held at a convenient time and location within the City of Dunwoody. At least seven days before but not more than 30 days before the date of the applicant-initiated meeting, notice of the meeting must be published in the official legal organ of the city. A notice of the meeting shall be sent to the city planner. If there is no residential zoning within 500 feet of the property under consideration, the applicant is exempt from neighbor communication summary requirements. A summary report containing the following information is required to be submitted with an application for an amendment at the time of application submittal:

- 1. Efforts to notify neighbors about the proposal (how and when notification occurred, and who was notified);
- 2. Meeting location, date and time;
- 3. Who was involved in the discussions;
- 4. Suggestions and concerns raised by neighbors; and
- 5. What specific changes to the proposal were considered and/or made as a result of the meeting.

To initiate a request for an amendment within the City of Dunwoody, an applicant must also attend a preapplication conference (Pre-Application Review) with key City personnel. Those meetings are scheduled as-needed, but the deadline for having such a meeting is set to ensure the appropriate time for staff review and communication prior to the special land use application deadline. Those meeting deadlines may be modified based on the scope of the project and proportionate review time. The purpose of the PreApplication Review Process is to establish an expectation on the part of both staff and the applicant for the amendment process. At the meeting(s), the applicant should display any preliminary site plans and/or other illustrative documents as necessary. The applicant will then detail an overview of their proposed application and their reasoning for why the application is necessary. Staff can then inform the applicant of the City's process to effect the change proposed and offer a preliminary analysis of the feasibility of the proposal, including ways upon which the proposal may need improvements or revisions. Following the Pre-Application Review Process, applicants can submit their application and required supplemental materials (detailed in the following checklist) to the Community Development Department, located at 4800 Ashford Dunwoody Road, Dunwoody, GA 30338. The deadline to be placed on the next month's Planning Commission agenda is the first Tuesday of the month by 3 PM.

i. Building elevations or renderings that identify proposed materials.  Survery of existing site conditions, signed and sealed by a surveyor or engineer licensed in the State of Georgia.  Please respond to the following criteria based on the nature of your request, as required by state law and City of Dunwoody Zoning Ordinance (use additional pages where necessary):
Comprehensive Plan Land Use Map Amendments
a. Whathay the prepared land use shapes will normit uses that are suitable in view of the use

- a. Whether the proposed land use change will permit uses that are suitable in view of the use and development of adjacent and nearby property;
- b. Whether the proposed land use change will adversely affect the existing use or usability of adjacent or nearby property;
- c. Whether the proposed land use change will result in uses that will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools;
- d. Whether the amendment is consistent with the written policies in the comprehensive plan text;
- e. Whether there are environmental impacts or consequences resulting from the proposed change;
- f. Whether there are impacts on properties in an adjoining governmental jurisdiction in cases of proposed changes near city boundary lines;
- g. Whether there are other existing or changing conditions affecting the use and development of the affected land areas that support either approval or denial of the proposed land use change; and

h. Whether there are impacts on historic buildings, sites, districts or archaeological resources resulting from the proposed change.

#### □ Zoning Map Amendments

- a. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan;
- b. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;
- c. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;
- d. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;
- e. Whether there are other existing or changing conditions affecting the use and development of the property that provide supporting grounds for either approval or disapproval of the zoning proposal;
- f. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources; and
- g. Whether the zoning proposal will result in a use that will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

### LETTER OF INTENT APPLICATION FOR REZONING CITY OF DUNWOODY, GEORGIA

JSJ Perimeter, LLC (the "Applicant" and Owner) requests a rezoning of property located at 84, 130, and 140 Perimeter Center East (Parcel Identification Numbers 18 18 347 01 013; 18 347 01 021; 18 347 01 028)(collectively known as the "Property"). The Property is currently zoned C-1 and is conditioned to a site plan showing a development consisting of a 12-story, 160-room hotel and two additional multi-story buildings containing 40,000 square feet of retail, restaurant and commercial uses. (See Dunwoody zoning case number MA 19-02).

The Applicant proposes to rezone the Property to PC-2 in accordance with the Perimeter Center District Regulating Map in order to replace the hotel with a multi-family rental building containing a maximum of 225 units that will be age-restricted to persons 55 years and older as defined by the Fair Housing Act. Like the previous approval, the development will also include approximately 43,140 square feet of commercial uses, including but not limited to restaurants and retail, patio and rooftop terrace seating and a multi-story parking deck. The development will incorporate the streetscapes on Ashford Dunwoody and Perimeter Center Parkway similar to that approved in MA 19-02. The Applicant has also submitted a Special Land Use Permit (SLUP) request concurrently with this application to allow the age restricted rental and to request variances for setbacks and maximum impervious coverage required by the PC-2 zoning in order to provide the setbacks and impervious coverage similar to that previously approved by MA 19-02. Other than changing the hotel use to age restricted rental housing, the development is similar to what was approved in MA 19-02. The SLUPs are needed due to the difference in zoning requirements between C-1 and PC-2.

The Applicant respectfully submits this request, and asks that the City Council approve the Rezoning as the proposal is consistent with the following standards and factors set forth in Section 27-335 of the Zoning Ordinance of the City of Dunwoody:

### 1. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan;

The Property is in the Perimeter Center Character Area, which is described as "a visitor friendly, livable regional center with first-class office, retail, entertainment, hotels, and high-end restaurants in a pedestrian and bicycle-oriented environment." Comp. Plan at Page 25. The Perimeter Center Character Area aims to create a "true live-work environment" by "creating

mixed-use, transit-oriented development within walking distance of public transit stations." Comp. Plan at Page 25. The Applicant's proposal is attuned to this vision for the Perimeter Center area, as the Applicant proposes a residential use and the Property is just a ten (10) to fifteen (15) minute walk from the Dunwoody MARTA station. Providing a mixed-use development with flexible commercial space at this location will not only allow the Applicant to respond to market demands for restaurant and retail uses, but will also foster small business creation and growth, one of the priority needs listed in the Comprehensive Plan. Comp. Plan at Page 36.

The City's Comprehensive Plan "aims to make Dunwoody a 'lifelong community:' that is, a place individuals can live throughout their lifetime and which provides a full range of options for residents, including: Encourage the integration of senior appropriate housing, both active adult and assisted living, into the fabric of the community, thus offering multigenerational or lifelong housing opportunities." Comp. Plan at 11. The vision and intent of the Perimeter Center Character Area is to "Achieve a lifelong-community for residents who can age in place with safe access to medical, recreational and other necessary services." Comp. Plan at 26. The Applicant's proposal will provide needed housing options to allow senior residents to downsize but stay within the community, near the services available in the immediate area. Therefore, the approval of the Applicant's proposal will achieve the City's objectives of a Lifelong Community.

### 2. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties;

The Applicant proposes to rezone the Property to PC-2 in accordance with the Perimeter Center District Regulating Map. Other parcels in the vicinity are zoned to the C-1, O-I and OCR districts and are densely with commercial, office and multi-family residential uses. The Property is situated opposite Perimeter Mall and near both the Dunwoody MARTA station and I-285. It is also within walking distance of dense office, residential, restaurants, and retail and other commercial uses. This Rezoning will permit a use that is suitable in view of the use and development of adjacent and nearby properties.

### 3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;

The Property was originally rezoned in 2008 to fit a specific market concept presented by a national hotel chain that combined a hotel with a large fitness center. The 2008 zoning

conditions were modified by MA 19-02 to allow a hotel and two multi-story commercial buildings. Since that time, the Covid-19 pandemic has altered market demand, particularly by reducing the demand for hotel uses. The Applicant's request, if granted, would allow reasonable economic use of the Property by providing age restricted residential uses to conform with the objectives of a Lifelong Community and more flexibility to meet current market conditions.

4. Whether the zoning proposal would adversely affect the existing use or usability of adjacent or nearby property;

The commercial uses proposed are allowed under the PC-2 District zoning classification. Age restricted rental housing is a permitted use, but only with a SLUP. This change would not affect the existing use or usability of adjacent or nearby property. The proposed change is in keeping with the policy objectives of the Perimeter Center District by proposing a mix of uses and maintaining improved modes of travel through streetscape improvements and a new road connection to the property to the south.

5. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal;

The surrounding area has been densely developed for many years. As mentioned above, the Applicant proposes uses that are included in the Lifelong Community objectives recommended for the Perimeter Center District.

6. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archeological resources;

The Applicant is unaware of any historic buildings, sites, districts, or archeological resources that this zoning proposal would adversely affect.

7. Whether the zoning proposal will result in a use that will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

The proposal is not expected to result in a use that would excessively burden existing streets, transportation facilities, utilities or schools. The proposed age-restricted housing is unlikely to have many school age children and will not impact the City's school system. While existing infrastructure is sufficient to meet the increases in usage that will result from the development, the proposed development will increase the number of car trips to the Property. As a result, the Applicant has agreed to install a new road connection to the southern property boundary for a future connection by the adjacent property owner.

Because this Rezoning proposal meets all the standards and factors set forth in Section 27-335 of the Zoning Ordinance of the City of Dunwoody, the Applicant respectfully asks that the City Council grant the Rezoning as requested by the Applicant above.

Sincerely,

THE GALLOWAY LAW GROUP, LLC

Laurel David

Attorney for the Applicant

4062 Peachtree Rd., Suite A330 Atlanta, Georgia 30319 (404) 965-3669

# LETTER OF INTENT FOR SPECIAL LAND USE PERMIT APPLICATION CITY OF DUNWOODY, GEORGIA

JSJ Perimeter, LLC (the "Applicant" and Owner) requests Special Land Use Permits (SLUPs) for property located at 84, 130, and 140 Perimeter Center East (Parcel Identification Numbers 18 18 347 01 013; 18 347 01 021; 18 347 01 028)(collectively known as the "Property"). The Property is zoned C-1 and is conditioned to a site plan showing a development consisting of a 12-story, 160-room hotel and two additional buildings – one one-story and one two-story - with approximately 40,000 square feet of retail, restaurant and commercial uses. (See Dunwoody zoning case number MA 19-02). The Property is currently occupied by a vacant bank building.

The Applicant has filed a rezoning application concurrently with this application to rezone the Property to PC-2 in accordance with the Perimeter Center District Regulating Map in order to be able to replace the hotel with a multi-family rental building containing a maximum of 225 units. Residents of the multi-family building will be age-restricted to persons 55 years and older as defined by the Fair Housing Act. Other than changing the hotel use to age restricted rental housing, the development is similar to what was approved in MA 19-02. The proposed development will also include approximately 43,140 square feet of commercial uses, including but not limited to restaurants and retail, patio and rooftop terrace seating and a multi-story parking deck. The development will incorporate the streetscapes on Ashford Dunwoody and Perimeter Center Parkway similar to that approved in MA 19-02.

The residential and commercial uses will be included in the same building. As a result, the buildings on the site are all designated as Shopfront Buildings and the requirements for that building type have been applied accordingly. As a result, SLUPs are needed due to the difference in zoning requirements between C-1 and PC-2, Shopfront Buildings, as follows:

1. To allow an exception to Section 27-104(c), Figure 27-104-3, for an increase in the maximum impervious coverage from 65% (or 75% with semi-pervious cover) to a total of 85% coverage of both impervious and semi-pervious coverage (see exhibit attached). The total maximum impervious/semi-impervious lot coverage allowed when MA 19-02 was approved was 86%, per variances approved 8/12/2008,

- Application No. A-08-14932. The lot coverage included in the MA 19-02 approval was 83.7%.
- 2. To allow residential use of age-restricted multi-family housing. Section 27-104(f)(2).
- 3. To allow an exception to Section 27-105(b)(2) to reduce the required interior side yard setback from 15 feet to 0 feet and to reduce the rear yard setback of 30 feet to 10 feet. The setbacks allowed when MA 19-02 was approved were zero for side and rear yards, per variances approved 8/12/2008, Application No. A-08-14932. The setbacks included in the MA 19-02 approval were zero feet for the interior side yard and 8 feet for the rear yard.
- 4. To allow and exception to Section 27-105(b)(2) to reduce the minimum floor-to-floor height required at the ground level from 14 feet for portions of the multi-family building that do not contain lobby or amenity spaces. The need for this SLUP is necessary to allow residential uses on the ground floor of a mixed-use Shopfront Building to activate the streetscape.
- 5. To allow an exception to Section 27-105(b)(2) for residential uses at the ground floor level in multi-family building that will not be service or lobbies for lodging. The need for this SLUP is necessary to allow residential uses on the ground floor of a mixed-use Shopfront Building to activate the streetscape.

The Applicant respectfully submits this request, and asks that the City Council approve the SLUPs as the proposal is consistent with the following standards and factors set forth in Section 27-359(b) of the Zoning Ordinance of the City of Dunwoody:

1. Whether the major exception request, if granted, will result in development that is inconsistent with the stated intent of the regulations;

Section 27-103 states the intent of the Perimeter Center (PC) district regulations is to promote the same purposes identified for the Perimeter Center Overlay. Specifically, the intent is "to recognize and foster the transformation of Perimeter Center into a pedestrian-friendly, livable center that ensures long term economic, social, and environmental sustainability." Section 27-98(a)(2).

The Applicant's proposal will provide residential uses for persons aged 55 and older within walking distance of the multitude of commercial uses in Perimeter Center. In addition to

containing compatible commercial, restaurant and retail uses on-site, it will be within walking distance of dense office, residential, and restaurant, retail and other commercial uses. The Applicant proposes to improve the streetscape on the Property to transform it to a pedestrian-friendly livable center in its own right, as well as being weaved into the fabric of the Perimeter Center livable center. In addition, the pedestrian and bike connection to the adjacent property to the south will further enhance the walkability of the Property.

The Furthermore, the City's Comprehensive Plan "aims to make Dunwoody a "lifelong community:" that is, a place individuals can live throughout their lifetime and which provides a full range of options for residents, including: Encourage the integration of senior appropriate housing, both active adult and assisted living, into the fabric of the community, thus offering multi-generational or lifelong housing opportunities." Comp. Plan at 11. Accordingly, the vision and intent of the Perimeter Center Character Area is to "Achieve a lifelong-community for residents who can age in place with safe access to medical, recreational and other necessary services." Comp. Plan at 26. Approval of the Applicant's proposal will achieve these objectives.

### (2) Whether the major exception request, if granted, will result in development that is in keeping with the overall character of the surrounding area; and

The Applicant proposes to rezone the Property to PC-2 in accordance with the Perimeter Center District Regulating Map. Other parcels in the vicinity are zoned to the C-1, O-I and OCR districts and are densely with commercial, office and multi-family residential uses. The Property is situated opposite Perimeter Mall and near both the Dunwoody MARTA station and I-285. It is also within walking distance of dense office, residential, and restaurant, retail and other commercial uses. The Property is in the Perimeter Center Character Area, which is described as "a visitor friendly, livable regional center with first-class office, retail, entertainment, hotels, and high-end restaurants in a pedestrian and bicycle-oriented environment." Comp. Plan at Page 25. The Perimeter Center Character Area aims to create a "true live-work environment" by "creating mixed-use, transit-oriented development within walking distance of public transit stations." Comp. Plan at Page 25.

The Applicant's proposal is attuned to this vision for the Perimeter Center area, as the Applicant proposes a residential use in a mixed use development just a ten (10) to fifteen (15) minute walk from the Dunwoody MARTA station. Providing a mixed-use development with flexible commercial space at this location will not only allow the Applicant to respond to market

demands for restaurant and retail uses, but will also foster small business creation and growth, one of the priority needs listed in the Comprehensive Plan. <u>Comp. Plan at Page 36.</u> Granting of the exceptions will result in a development that fosters the intent of the Perimeter Center District regulations and, therefore, in keeping with the overall character of the surrounding area.

The special exceptions requested for setbacks and lot coverage are in keeping with the overall character of the surrounding area. The proposal will be enhanced with landscaping and outdoor patio seating for the commercial uses, rooftop terraces with container gardens (that will be open to the public) and outdoor amenity areas for the multifamily use. The exceptions requested for floor-to-floor height and residential uses on the ground floor will activate the streetscape and help provide a transition to adjacent residential uses.

### (3) Whether any negative impacts resulting from the granting of the major exception will be mitigated to the maximum practical extent.

The commercial uses proposed are allowed under the PC-2 District zoning classification. Age restricted rental housing is a permitted use, but only with a SLUP. This change would not affect the existing use or usability of adjacent or nearby property. The proposed change is in keeping with the policy objectives of the Perimeter Center District by proposing a mix of uses and maintaining improved modes of travel through streetscape improvements and a new road connection to the property to the south.

The special exceptions requested for setbacks and lot coverage will be mitigated with landscaping and outdoor patio seating for the commercial uses, rooftop terraces with container gardens (that will be open to the public) and outdoor amenity areas for the multifamily use. The exceptions requested for floor-to-floor height and residential uses on the ground floor are to allow residential uses at the ground floor level to be occupied by residents on the western side of the building, adjacent to multi-family uses. This would not only activate the streetscape, but help provide a transition to adjacent residential uses.

The proposal is not expected to result in a use that would excessively burden existing streets, transportation facilities, utilities or schools. The proposed age-restricted housing is unlikely to have many school age children and will not impact the City's school system. While existing infrastructure is sufficient to meet the increases in usage that will result from the development, the proposed development will increase the number of car trips to the Property. As

a result, the Applicant has agreed to install a new road connection to the southern property boundary for a future connection by the adjacent property owner.

Because this SLUPs requested meet all the standards and factors set forth in Section 27-359(b) of the Zoning Ordinance of the City of Dunwoody, the Applicant respectfully asks that the City Council grant the SLUPs as requested by the Applicant above.

Sincerely,

THE GALLOWAY LAW GROUP, LLC

# CONSTITUTIONAL OBJECTIONS APPLICATION FOR REZONIGN MODIFICATION CITY OF DUNWOODY, GEORGIA

Georgia Law and the procedures of City of Dunwoody require us to raise Federal and State Constitutional objections during the Rezoning Modification application process. While the Owner/Applicant anticipates a smooth application process, failure to raise constitutional objections at this stage may mean that the Owner/Applicant will be barred from raising important legal claims later in the process. Accordingly, we are required to raise the following constitutional objections at this time:

The portions of the Zoning Ordinance of City of Dunwoody, Georgia, as applied to the Property, that would result in a denial of the Rezoning Modification as requested, are, or would be, unconstitutional in that they would destroy property rights without first paying fair, adequate and just compensation for such rights, in violation of Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983 and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

Any application of the Code of City of Dunwoody or the City of Dunwoody Zoning Ordinance to the Property which restricts its use to any use in a manner other than that requested is unconstitutional, illegal and null and void because such an application constitutes a taking of property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I, of the Constitution of the State of Georgia of 1983 and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States because such an application denies the Owner/Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would also constitute an arbitrary and capricious act by the City Council of City of Dunwoody without any rational basis therefore, thereby constituting an abuse of discretion in violation of Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983 and the Due Process Clause of the Fourteenth Amendment to the Constitution of the United States.

A refusal to grant the Rezoning Modification as requested would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Owner/Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any approval of the Rezoning Modification subject to conditions that are different from the conditions requested, to the extent such different conditions would have the effect of further restricting the utilization of the Property, would also constitute an arbitrary, capricious and discriminatory act and would

likewise violate each of the provisions of the State and Federal Constitutions set forth herein above.

In addition, this constitutes formal written notice to City of Dunwoody, pursuant to O.C.G.A. § 36-33-5, that the Owner/Applicant plans to seek to recover all damages that it sustains or suffers as a result of the denial of this Application and/or the unconstitutional zoning of the Property by City of Dunwoody. Such damages may include, but are not necessarily limited to, damages related to the diminution in the value of the Property, attorneys' fees and expenses of litigation.

Accordingly, the Owner/Applicant respectfully requests that the City Council of the City of Dunwoody grant the Rezoning Modification as requested.
