MEMORANDUM

To: Mayor and City Council

From: Michael Smith, Public Works Director

Date: October 25, 2021

Subject: **Approval of an Intergovernmental Agreement with the Georgia Department of Transportation for Traffic Signal Operation Program Coordination**

BACKGROUND

In 2012 the city and the Perimeter Community Improvement District (PCID) initiated the Perimeter traffic signal operations program funded by the Georgia Department of Transportation (GDOT). At the time, it was the first program in the state to coordinate traffic signal timing and management across multiple corridors and multiple jurisdictions. In the first two years of the program, travel delays on the major corridors in the PCID were reduced by 30%. The PCID continued to administer the program until 2018 when GDOT began to directly contract with the traffic engineering consultants managing the signals. The value of the materials and professional services that the city has received under the 2018 program exceeds \$400,000 annually.

With the expiration of the current consultant contracts, GDOT has decided to implement their signal operations program statewide and expand coverage to include assistance with any traffic signal rather than just on specific corridors. In Dunwoody this means that the 23 signals outside of Perimeter and Dunwoody Village will now be eligible for state assistance. Under the new program, Dunwoody will be part of the Central Metro region that will include Midtown, Buckhead, Perimeter, central Fulton and DeKalb County north of I-85.

To implement the new traffic operations program, GDOT is asking local jurisdictions to enter into the attached intergovernmental agreement which outlines roles and responsibilities. The agreement includes provisions for data sharing; state assistance with signal timing and enhancements; and cooperation between the city and state prior to making signal timing adjustments. The state will fund 100% of the cost for the program and the term of the agreement is 10 years with the ability for either party to terminate the agreement with 60 days written notice. As with the previous traffic operations programs, the local government still has ultimate responsibility for the operation and maintenance of traffic signals in their jurisdiction.

RECOMMENDED ACTION

Staff recommends approval of the intergovernmental agreement with the Georgia Department of Transportation for traffic signal operation program coordination.

II. DURATION

This Agreement shall become effective upon its execution by the PARTIES and shall continue for ten (10) years from the Effective Date, unless otherwise extended by mutual consent of the PARTIES in writing or terminated earlier pursuant to Section III of this Agreement.
