

## MEMORANDUM

**To:** Mayor and City Council  
**From:** Mike Carlson, Deputy Chief of Police  
**Date:** July 11, 2022

**Subject: Authorize the Purchase of Glock 17 9mm Caliber Firearms to Replace Glock 21 .45 Caliber Firearms as Primary Duty Weapon**

---

### **ACTION**

Authorize the police department to replace their primary weapon, a Glock 21 .45 caliber firearm, with a Glock 17 9mm caliber firearm with a red dot reflex sighting system.

### **BACKGROUND/SUMMARY**

In 2009, the police department purchased the Glock 21 .45 caliber firearm as our primary duty weapon. Although this weapon has served the department's needs for many years, it is time to replace it due to wear and tear.

Our firearms team investigated replacing the Glock 21 with an updated .45 caliber Glock or switching to a .9mm from Glock. In the spring of 2022, the Dunwoody Police Department firearms team began a testing and evaluation process with the Gen 5 Glock 17 Modular Optics System (MOS) paired with the Aimpoint Acro P-2 Red Dot Reflex Sight.

The Glock 17 was selected due to its caliber (9mm) and long-standing reliability as a law enforcement-issued handgun. Furthermore, the Glock 17 provides a more slender grip than the current Glock 21 and reduced recoil compared to the .45 ACP. In addition, the Glock 17 has a higher ammunition capacity (an additional 12 rounds per officer) and is designed to be outfitted with a Mini Red Dot Sighting System (MRDS). Lastly, the 9mm ammunition is less costly.

The Aimpoint Acro P-2 is a closed emitter sighting system that provides officers a single-point sight reference compared to the traditional two-point sighting system requiring front and rear sight alignment. With proper training, this sighting system

allows officers to be faster and more accurate on target from many distances. In addition, the closed emitter creates a rugged and more durable sighting system that outperforms its competitors in the market. The device has a battery life of 5 years (always on) and has been tested by our agency in extreme elements.

During our most recent firearms session, we selected high-level, mid-level, and problem shooters to train with this platform for eight (8) hours. With minimal training, many of these shooters improved their qualification scores, and their precision improved with faster follow-up shots on target.

The shooter's grip, recoil management, and magazine capacity are beneficial to our officers. Additionally, the Aimpoint Red Dot Reflex Sight was proven to increase our officers' accuracy, precision, and speed when using the weapon.

## **RECOMMENDATION**

Staff recommends the City Council approve the purchase of 63 Gen 5 Glock 17 9mm firearm outfitted with the Aimpoint Acro P-2 Red Dot Reflex Sight and all ancillary equipment needed to equip each of our officers. The total cost is \$63,759.07, which already includes a credit of \$19,500 for the trade-in of 60 Glock 21s. This purchase can be funded using personnel savings in the current 2022 budget.
