Text Amendment – Medical Cannabis Dispensaries

July 10, 2023

State Regulations

HB 324 – Georgia’s Hope Act (2019)

- Allows for production, distribution, and dispensing of low THC oil to registered patients
- Establishes two pathways to legally dispense medical cannabis
 - Georgia Access to Medical Cannabis Commission: In July of 2022, approved the first two licenses for five dedicated dispensaries each in Georgia. Ultimately, expected to license six operators with a total of 30 dispensaries statewide
 - State Board of Pharmacy: Develops dispensing licensing regulations for pharmacies. No clear timeline for rules as of 2023
- Minimum distance of 1,000 feet from public or private schools, early care or education programs, and places of worship

State Regulations

- Local governments specifically authorized to use zoning powers to regulate based on local needs
- Truelieve (one licensee) has opened locations in Marietta, Macon, and Pooler
- Botanical Sciences (second licensee) has not announced locations yet

Medical vs Recreational Cannabis

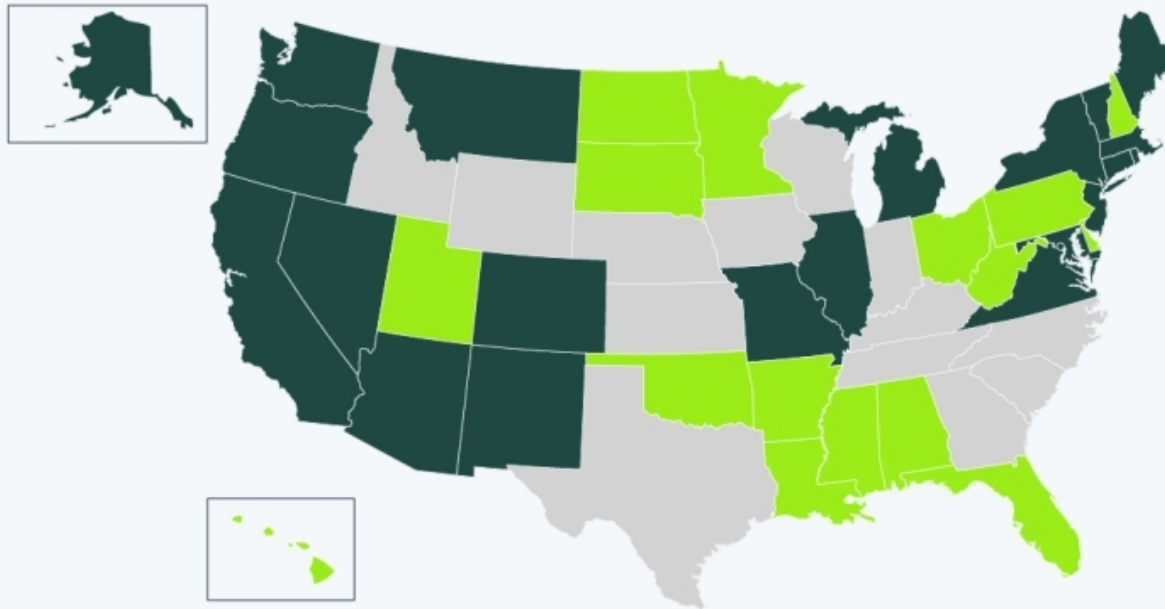

- Georgia only legalized low THC (THC is the main active ingredient in cannabis) oil with no more than 5% THC content and only for specified medical purposes
- By comparison, recreational cannabis can have THC content of more than 19%
- Requires medical doctor's consultation and registration with the state
- Medical care only given for 17 specific medical conditions
- Likely, legal dispensaries will only capture a certain percentage of the currently illegal market:
 - Reduced THC content and variety
 - Likely more expensive than illegal market
 - Overly strict regulations can shift market share towards illegal market: Estimated 68% of total cannabis sales in Massachusetts are illegal

The State of Marijuana Legalization in the U.S.

Laws on recreational and medical marijuana use in the United States

■ Legal recreational & medical use ■ Medical use only

As of Nov 9, 2022. Some states not highlighted allow limited medical marijuana access.

Sources: NORML

- Georgia’s low THC oil is called CBD oil in other states. CBD is a non-toxicating compound of cannabis
- Georgia’s medical cannabis program is not considered a full-fledged medical cannabis program

Florida Experiences

- Community Development reached out to seven municipalities in Florida to gain experiences about medical marijuana dispensaries; obtained feedback from four
- Medical marijuana legal in Florida since 2014; rules more permissive than Georgia's
- Dispensaries prefer small retail spaces between 2,000 sf and 5,000 sf, often inline retail suites or freestanding retail/restaurant buildings
- Traffic impact similar to pharmacies
- No reported nuisances

Regulatory Considerations

- State of Georgia has decided that medical cannabis is a valuable medical resources to its residents
 - Only 30 locations statewide; burdensome regulations may push businesses to surrounding communities
- Likely few negative impacts:
 - Positive experiences from Florida communities
 - Georgia laws stricter than those of neighboring states
- Permitted use vs special use: staff recommends permitted use
 - Special use really intended for uses that requires additional conditions, e.g. landscape buffers, operating hours, design standards
 - Medical cannabis dispensaries typically do not cause increased impacts when compared to typical retail spaces

Use Standards

- Permitted use in OCR, NS, C-1, CR-1, C-2, PC-1, PC-2-, PC-3, DV-1, DV-4: similar to other retail sales
- Minimum distance requirements in accordance with state law: Minimum distance of 1,000 feet from public or private schools, early care or education programs, and places of worship
- For comparison: package liquor stores cannot be within 300 feet of places of worship, 600 feet of schools, and 600 feet of other liquor package stores
- Minimum distance requirement from other medical cannabis dispensaries to prevent clustering (2 miles)
- Language that prevents consumption on the premises

standing retail buildings between 2,000 sf and 5,000 sf in size. The traffic impact is similar to other retail uses and no nuisances were reported.

The proposed text amendment would make medical cannabis dispensaries a permitted use in the same districts that allow other retail sales and add use-specific regulations. In addition to the state requirements, a two-mile distancing requirement between dispensaries will prevent clustering of facilities, but allow access to these services in the different parts of the city.

STAFF RECOMMENDATION

Staff recommends **APPROVAL.**

PLANNING COMMISSION RECOMMENDATION

In its June 13 meeting, the Planning Commission recommended approval of the text amendment by 4-3 vote. Vice Chair Harris and Commissioners Cameron, Gordon, and Shin voted in favor, while Chair O’Brien and Commissioners Brown and Edmundson voted against. The commission members voting against were in support of the use but would have recommended a reduction or elimination of the two-mile distance requirement between dispensaries.
