

To: Mayor and City Council
 From: Rachel Waldron
 Parks and Recreation Director
 Re: Playground Resurfacing Repairs at Brook Run Park
 Date: October 15, 2024

Action

Approval of roll coat surface repairs at Brook Run Park playground by Lanier Plans, Inc. dba KorKat.

Summary

Rubber surfacing can last 10–15 years, depending on the quality of installation, maintenance, and the type of rubber used. Roll coat is used to help extend the life of the surface, as needed, based on foot traffic and weather. Extreme sun exposure and fluctuating temperatures can cause wear and tear over time.

Details

Based on past performance, Purchasing recommended we award KorKat the small dollar repair projects. Roll coat repairs have been completed this year at Pernoshal Park, Georgetown Park, and Windwood Hollow Park. The Brook Run Park project is being presented individually since the total for all work by KorKat is now over \$50,000. Special attention will be made to the mats and surrounding areas underneath the swings and slides.

Site	Last Completed Prior to 2024	Project Cost
Pernoshal Park Exercise Stations	N/A Other repairs completed as needed.	\$26,411
Georgetown Park Playground	2016	\$6,000
Windwood Hollow Park Playground	2020	\$9,700
Brook Run Park Playground	New surface installed 2020. Due for roll coat.	\$30,000

Recommendation

Staff respectfully requests that Council: 1) Approve continuing with playground resurfacing repairs at Brook Run Park, in the amount of \$30,000 which includes a 20% contingency; 2) Adding KorKat to the balance of the Standby Skilled Trade Contractors contract; (3) authorize the City Manager to execute the necessary documents.

Brook Run Park Playground Resurfacing

September 23, 2024

Summary

- Rubber surfacing can last 10–15 years, depending on the quality of installation, maintenance, and the type of rubber used. Roll coat is used to help extend the life of the surface, as needed, based on foot traffic and weather. Extreme sun exposure and fluctuating temperatures can cause wear and tear over time.

Background/Timeline

- Georgetown Park roll coat last completed 2016.
- Windwood Hollow Park roll coat last completed 2020.
- Pernoshal has never had roll coat completed. Other repairs have been completed as needed.
- Pour-in-place at Brook Run Park playground was installed in 2020 and is now due. Sees heaviest amount of foot traffic.

Financial Impact

Pernoshal Park \$ 26,411 *Completed August 15, 2024*

Georgetown Park \$ 6,000 *Completed August 22, 2024*

Windwood Hollow Park \$ 9,700 *Completed September 2, 2024*

Total Work Completed Thus Far: \$42,111

Brook Run Park \$25,038

Final Total: \$67,149

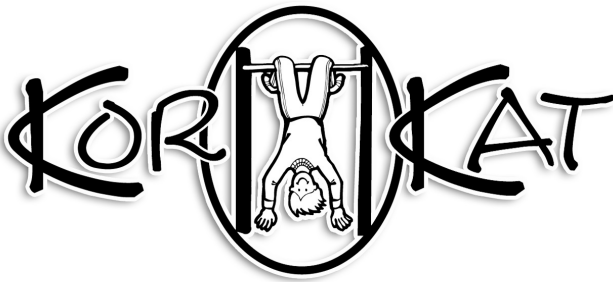

- Funds will be allocated from SPLOST I. Based on past performance, Purchasing recommended we award KorKat the small dollar repair projects. The Brook Run Park project is being presented since the total is now over \$50,000.

Staff Recommendation

- Staff recommends:
 - 1) Continuing with playground resurfacing repairs at Brook Run Park before wear and tear progresses further and while weather is favorable.
 - 2) Adding KorKat to the balance of the Standby Skilled Trade Contractors contract, which expires December of 2026. RFQ 23-05 received no responses for “Playground Repair” category.

An aerial photograph of a large, circular splash pad in a park. The splash pad is a light blue color with several circular water jets. A large crowd of people, including children and adults, is gathered around the splash pad, many of whom are playing in the water. The splash pad is enclosed by a black metal railing. Outside the railing, there are concrete walkways, benches, and some trees. The overall scene is bright and sunny, suggesting a warm day.
